PROFESSIONAL EXPERIENCE

Global HRIS Analyst

Jan 2024 – Present

Prysmian

Milano, Italy

- Managed Workday HRIS platform for a global organization with 30,000+ employees across 50+ countries, covering North America, Europe, MEAT, LATAM, and APAC
- Managed demand and delivery for a company-wide transformation initiative in Workday, focused on rethinking and redesigning business processes to align with the organization's evolving structure. Gathered requirements, collaborated with stakeholders, and coordinated technical teams to ensure seamless implementation
- Developed data pipelines using PRISM ETL to fulfill internal stakeholders' demands and needs. Key projects included monthly signon analysis, intercompany expat recharge flow, LTI plan accrual system, external/internal learning data consolidation flow
- Developed custom in-house integrations and implemented third-party professional solutions leveraging advanced integration tools and API frameworks (WWS), enabling seamless communication and enhanced functionality across HRIS platforms and other enterprise systems
- Developed and maintained custom HRIS solutions using advanced integration tools, including APIs and Workday PRISM, ensuring reliable data flow and optimized workflows
- Working closely with global HR, IT, Payroll, and Cybersecurity departments to integrate Workday with other enterprise systems, ensuring system reliability, scalability, and alignment with overall business goals
- Workday Modules: Advance Analytics, PRISM, Integration, Talent Management, Recruiting
